**THINK IT OVER**

(St. Paul)

But this one thing I do, forgetting  
those things which are behind, and  
reaching forth unto those things  
which are before, I press toward the  
mark of the prize of the high calling  
of God in Christ Jesus.

After all, it is the statesmanship of  
Foch that Germany understands best.

The German idea seems to be that  
the allies ought to rejoice that she is  
willing to pay anything.

It is gratifying that although the  
Atlantic fleet isn't looking for a  
fight, it is ready for one.

Plans are reported under way in  
Washington to stabilize the dollar,  
but the minute it finds itself in a  
meat market it will go all to pieces.

Charlie Chaplin is said to have re-  
jected an offer of more than a million  
dollars for a theatrical engagement  
lasting more than a year. Stage  
money, perhaps.

Observing reader calls our attention  
to the fact that the devilfish which  
climbed aboard a Cunard liner and  
battled the crew selected the outside  
of the three-mile limit for his exploit.

**REHABILITATION OF RUSSIA  
NEXT**

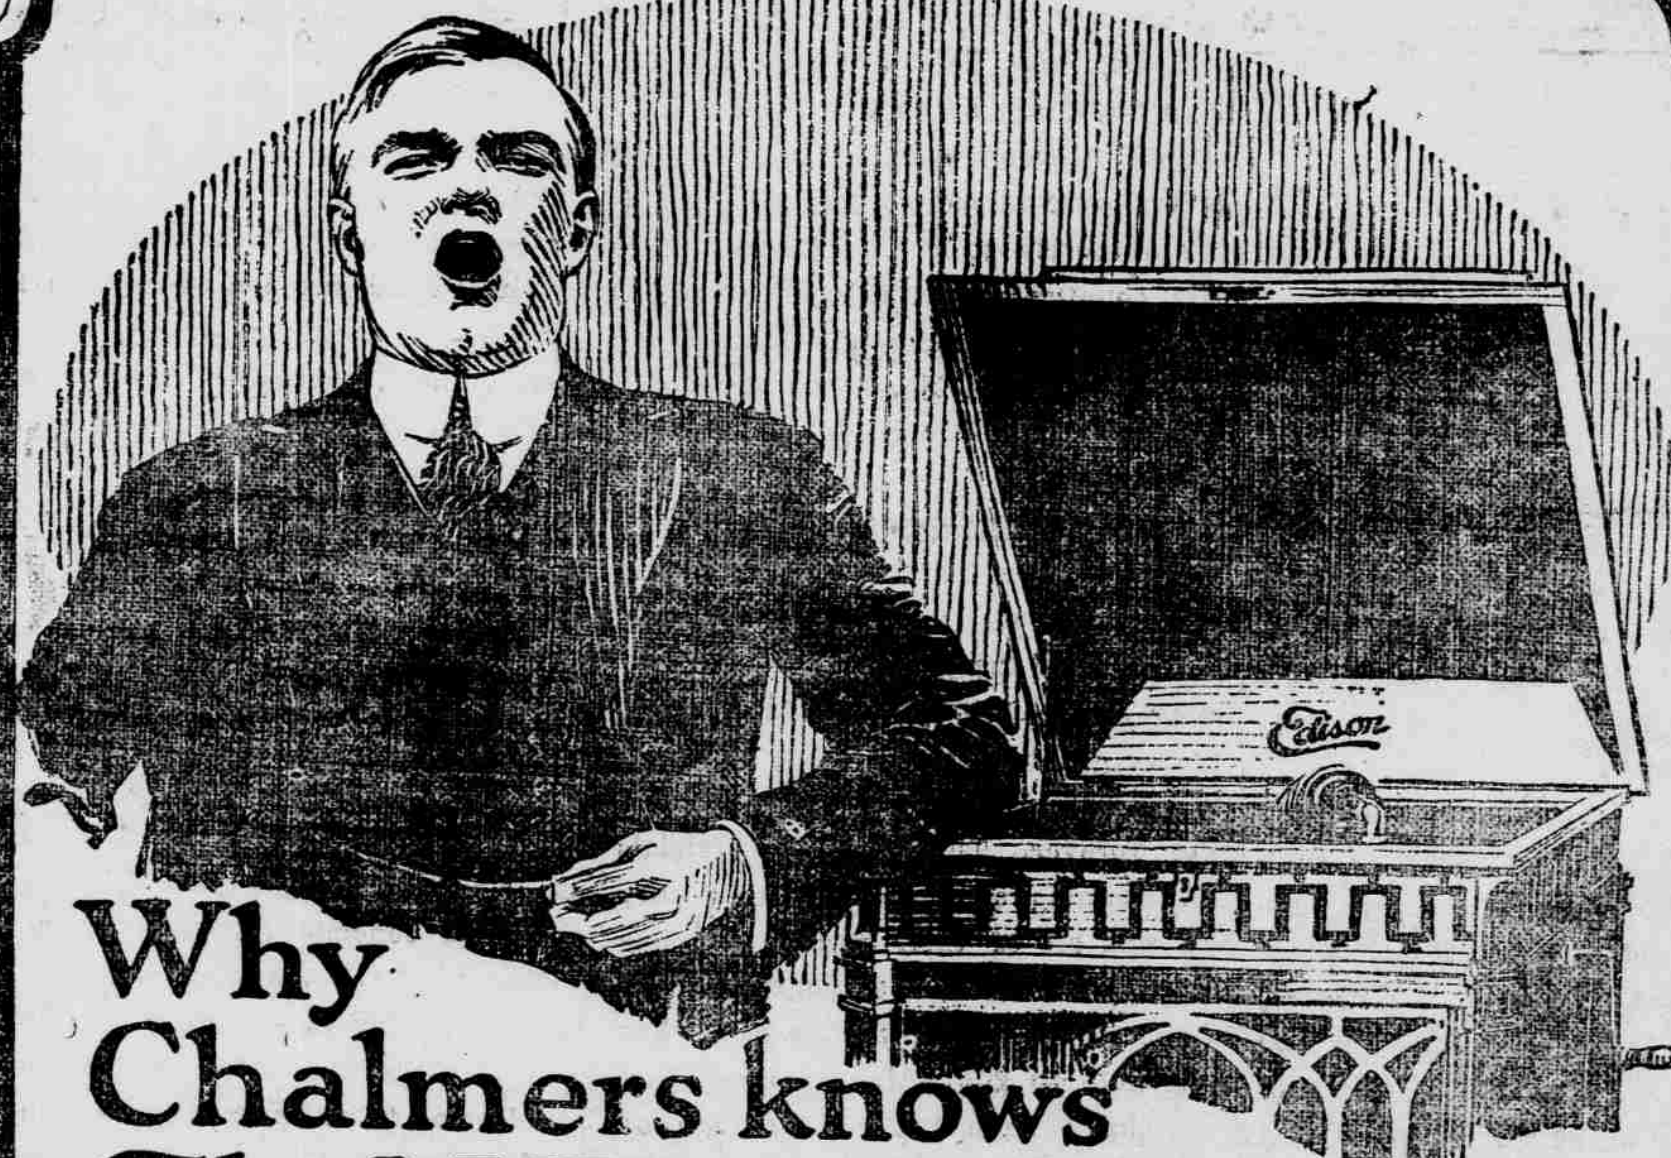

It now seems if the allies were de-  
termined to settle the German repara-  
tions matter, and thereby one of the  
main conditions affecting world busi-  
ness will be out of the way.

The other great question which  
will then be before the world will be  
the re-establishment of Russia, and  
that is a question which the allies  
should take up next and bring to a  
conclusion. We have always felt that  
the Russian question has not received  
the proper attention, and was having  
as great effect upon world conditions  
as the German situation. When as  
large a nation as Russia is in such a  
state of chaos it must necessarily af-  
fect the balance of the world. There  
are unmistakable signs in Russia that  
the one hundred and seventy eight  
million of people in Russia are gradu-  
ally coming to their senses and with-  
in a reasonable time we may expect  
them to throw off the weight of the  
intolerable despotism which has for  
more than three years sought to des-  
troy its civilization. In this mighty  
effort they should not only have the  
moral support of the balance of the  
world, but the material support of its  
former allies. We have always felt  
that Russia went into the fight in  
good faith and would have remained  
in the fight until the end, if it had  
not been disrupted from within by  
the insidious German propaganda and  
influence which finally consummated  
its ruin.

For the United States, the rehabi-  
litation of Russia must mean much,  
for they need large quantities of

goods which we manufacture, and more modest and lady-like girls than  
while we approved the action of this night here at home? When everything is running smooth-  
government in not agreeing to any trade arrangement with Soviet Rus-  
sia, yet we feel that we should bend ly and life is one grand, sweet song, I  
every effort and use every influence think Scotland Neck is the grandest  
place on earth in which to live; but  
when one is burdened with grief and  
this question solved, as it looks as if sorrow, as I have been for the past  
three weeks, on account of the serious  
illness of my wife, who is now con-  
valescent, I think this good town is  
second only to heaven. You have  
been very kind, indeed, to Mrs. Vaugh-  
an and me, in expressing your sym-  
pathies, enquiring about her condition,  
sending flowers, visiting her, offering  
me the use of your car, sending me  
over to see her while she was in the  
hospital, and, in various ways, shown  
your goodness of heart, for all of  
which, our gratitude knows no bounds.

CLEE VAUGHAN.

Chalmers knows  
The NEW EDISON  
gives his true voice**

**B**ECAUSE he has compared his voice with its RE-CREATION by the New  
Edison. Because thousands of people have heard this comparison. Because  
no one distinguished any difference between his living voice and his RE-  
CREATED voice.

Don't take the statement of an artist that a phonograph gives his true voice.  
See whether that phonograph can sustain the comparison-test. If it can't, you  
know that such phonograph does not give you the artist's true voice, but merely  
a mechanical version of its own. Think about these things! Then remember that  
the New Edison does sustain the comparison test, that it is the only phonograph  
which sustains the comparison test; and that we are always glad to prove this to you.
